

The **Rolling Stone 500 Greatest Albums of All Time** list was assembled by the editors of *Rolling Stone*, based on the results of two extensive polls. In 2003, *Rolling Stone* asked a panel of 271 artists, producers, industry executives and journalists to pick the greatest albums of all time. In 2009, we asked a similar group of 100 experts to pick the best albums of the 2000s. From those results, *Rolling Stone* created this new list of the greatest albums of all time in 2012.
